

## **Working Group 3: Public-Private Community Initiatives (PPCIs)**

### **Plan of Action 2016-17**

#### **Working Group Statement of Purpose:**

Cities and regions have a key role to play in:

- Designing and securing PPCIs that build social cohesion and prevent violent extremism.

#### **Working Group Plan of Action:**

- Create a strategy toolkit or training module in multiple languages outlining different PPCI models and suggestions for PPCI partnerships.
- Create a dedicated space on the SCN Online Hub at [www.strongcitiesnetwork.org](http://www.strongcitiesnetwork.org) to feature, circulate and promote case studies and effective PPCI programmes, categorised and searchable via different themes.
- Identify an SCN Working Group member to receive support in developing an engagement strategy and identifying resource needs in terms of designing a PPCI that specifically aims to build social cohesion and resilience to violent extremism (e.g. with local sports club).
