- Establishing monitoring forum for the CSO
- Strengthening international cooperation
ROLE OF CSO IN THE NAP ON CVE THAT LEADS TO TERRORISM

CSO IS INVOLVED IN THE DEVELOPMENT PROCESS OF THE NAP ON CVE THAT LEADS TO TERRORISM THROUGH the FGDs and PUBLIC CONSULTATIONS

PROGRAMS THAT WILL BE IMPLEMENTED BY CSO

- improving and develop partnership platform between government agencies and civil society in CVE that leads to terrorism efforts
- identify CVE programs that will be implemented together with the Government
- strengthening coordination mechanism related to the NAP on CVE that leads to terrorism
- improving technical assistance mechanism related to CVE efforts with dialogue / international partners
- building institutional capacity for programming partners
- mapping community engaged in CVE
- strengthen and continue research and sharing knowledge of violent extremism that leads to terrorism
It is advantageous to have already in place a coordinating mechanism at the national level, when formulating a national action plan.

From the start of formulating any national action plan, the involvement of CSOs is an important element to consider.

The role of CSOs is important in supporting the effort to formulate a national action plan as well as bringing the national action plan to the regional and municipal level.

At the end of the day most of the actions, activities, and or programs will be implemented by the CSOs at the grass root level.
